Subject: KOA will collaborate with KMECT for raising Medical Funds.

Dear Community Members,

Namaskar !

It is for the general information of community members that KOA Board of Directors in its Board meeting on October 19th, 2013 resolved that KOA will collaborate with KMECT for raising medical funds for the needy members of our community.

All the Board of Directors and KOA Executive were appreciative of the yeoman service provided by KMECT which is prompt, professional, personalized with highest degree of compassion, transparency and accountability.

KOA will shortly provide a list of physicians along with their speciality with contact details to KMECT for enabling patients from our community to seek second opinion, guidance to those who might be interested in seeking treatment in USA.

This means that any request for medical funds will be routed through KMECT approval as per their existing policy and procedures. Those approved will have to complete simple paper work prescribed by KOA for being in compliance with IRS and subsequently KOA through its Program Director, Dr. Chand Bhan Jee will solicit financial support for that particular case for the amount approved by KMECT. KOA will also create General Medical Fund which might expedite the transfer of funds to KMECT at short notice.

Respectful regards,

Surinder Kaul.
